Ventilation requirements for built-in minibars: When incorporated into furniture, minibars require proper ventilation (a surface of at least 200 cm<sup>2</sup>).

\* Average energy consumption over 24 hours period under normal operating conditions

## PB 30 and PB 40 Standard

The PB 30 and PB 40 come with standard solid door with interchangeable hinges, fully adjustable shelving and with optional internal light and lock.

## PB 30 G and 40 G (Black Glass Door)

The black glass door option provides a clean neutral look for the minibar to seamlessly blend in with furniture. The full glass door option increases product visibility and guest utilization.

## PB 30 A and 40 A (Aluminium Glass Door)

The aluminium glass door option provides hotels with a luxury stainless steel look for their minibars. The full glass door option increases product visibility and guest utilization.
